**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF TOPLINE SECURITIES LIMITED**

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Topline Securities Limited** (the Company), which comprise the statement of financial position as at June 30, 2025, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies, information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2025 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the directors' report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business;
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980.
- e) the Company was in compliance with the requirement of section 78 of the Securities Act 2015, and section 62 of the Futures Act, 2016, and the relevant requirements of Securities Brokers (Licencing and Operations) Regulations, 2016 as at the date on which the financial position was prepared.
- f) the Company was in compliance with the relevant requirements of Futures Brokers (Licensing and Operations Regulations), 2018 as at the date on which the statement of financial position was prepared.

The engagement partner on the audit resulting in this independent auditor's report is **Azeem H. Siddiqui - FCA**

Chief Executive

Director

TOPLINE SECURITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2025

1 STATUS AND NATURE OF BUSINESS

Topline Securities Limited (the Company) was incorporated in Karachi as a Private Limited company on June 27, 2001 under the Repealed Companies Ordinance, 1984 ('the Ordinance') which has now been replaced with Companies Act, 2017 ('the Act'). The company's private limited status was converted into a Public Limited Company on April 07, 2016 by the Securities and Exchange Commission of Pakistan. The registered office of the Company is situated at 8th Floor, Horizon Tower, Plot 2/, Block -3, Clifton Karachi. The company is holder of Trading Right Entitlement Certificate ("TREC") of Pakistan Stock Exchange Limited and a member of Pakistan Mercantile Exchange Limited (PMEX). The principal activities of the Company is to carry on the business of stock brokerage, underwriting, commodity brokerage, consultancy, book building and advisory services.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for financial reporting. The accounting and reporting standards as applicable in Pakistan comprise of such International Financial Reporting Standards (IFRS Standards), issued by International Accounting Standard Board (IASB) as notified under Companies Act, 2017 (the "Act"); and provisions of and directives issued under the Companies Act, 2017. Where the provisions of and directives issued under the Companies Act, 2017 differ from the IFRS standard, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared on the basis of historical cost convention except for short term investments in quoted equity securities and mutual fund units which are stated at fair value, Pakistan investment bonds and government treasury bills are carried at amortized cost.

2.3 Functional and presentation currency

These financial statements are presented in Pak Rupees, which is the functional and presentation currency of the Company and rounded off to nearest rupee.

2.4 Significant accounting estimates and judgements

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience, industry trends, legal and technical pronouncements and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised. Significant areas requiring the use of management estimates in these financial statements relate to the following:

- Property and equipment and depreciation (refer note 4.1)
- Intangible assets and amortization (refer note 4.2)
- Trade debts (refer note 4.5)
- Taxation (refer note 4.8)
- Provisions (refer note 4.13)

3 APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS TO PUBLISHED APPROVED ACCOUNTING AND REPORTING STANDARDS

3.1 New accounting standards, amendments and IFRS interpretations that are effective for the year ended June 30, 2025

There were certain amendments to accounting and reporting standards that became applicable to the Company during the year. These do not have any material impact on the Company's financial reporting and, therefore, have not been disclosed in these financial statements.

3.2 New accounting standards, amendments and interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and the amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

DESCRIPTION	Effective date (annual periods beginning on or after)
IAS -21 The effects of changes in Foreign exchange rates (Amendments).	1-Jul-25
Amendments to IAS 7 'Statement of Cash Flows' and IFRS 7 'Financial Instruments: Disclosures' - Supplier Finance Arrangements	1-Jan-26
Annual Improvements to IFRS Accounting Standards -Volume 11	1-Jan-26
IFRS 17 Insurance Contracts	1-Jan-26
Amendment to IFRS 10 and 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred indefinitely

Other than the aforesaid amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

IFRS 1 'First-time Adoption of International Financial Reporting Standards

IFRS 18 'Presentation and Disclosures in Financial Statements'

IFRS 19 'Subsidiaries without Public Accountability: Disclosures'

4.1 Property and equipment

These are stated at cost less accumulated depreciation and accumulated impairment, if any.

Depreciation is charged to profit and loss account applying the straight line depreciation method at the rates specified in the relevant note. Depreciation on additions is charged from the month in which the asset is put to use and no depreciation is charged in the month of disposal.

Proportionate depreciation is charged in respect of additions and disposals made during the year. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Maintenance and normal repairs are charged to profit and loss account. Major renewals and improvements are capitalized.

Gains and losses on disposal of assets, if any, are determined by comparing the sale proceeds with the carrying values and are charged to profit and loss account.

4.2 Intangible assets

These represent computer software, Membership card of Pakistan Mercantile Exchange and Trading Right Entitlement Certificate of Pakistan Stock Exchange.

Computer software are recognized in the financial statements, if and only if, it is probable that the future economic benefits that are attributable to the assets will flow to the Company; and the cost of the assets can be measured reliably. These are carried at cost less accumulated amortization and impairment, if any.

TRE Certificate is considered to have indefinite useful life and stated at revalued amount. The carrying amounts are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts, and when carrying value exceeds estimated recoverable amount, these are written to their estimated recoverable amount.

4.3 Right-of-use asset

The right-of-use asset is initially measured based on the initial measurement of lease liability, plus any initial direct costs incurred and an estimate of costs to be incurred to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located.

The right-of-use asset is subsequently measured at cost model. The right of use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company has elected to apply the practical expedient not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases are recognised as an expense on a straight line basis over the lease term.

4.4 Long term deposits

These are stated at cost which represents the fair value of consideration given.

4.5 Trade debts

Debts originated by the Company are recognized and carried at original invoice amount (which generally equals to the fair value) less any amount written off or provision made for debts considered doubtful on the date of settlement.

4.6 Fiduciary assets

Assets held in a trust or in a fiduciary capacity by the Company are not treated as assets of the Company and are accordingly not included in the financial statements.

4.7 Investments

Investments in securities are initially recognized at cost, being the fair value of the consideration given, including the transaction cost associated with the investment, except in case of investments at fair value through profit or loss, in which case these transaction cost are charged to the profit or loss account. All regular way of purchases and sale of investments are recognized/derecognized on the settlement date. These are classified and measured

as follows:

my
T

a) Investment at fair value through profit or loss

Investment which are acquired principally for the purposes of generating profit from short term fluctuation in price or are part of the portfolio in which there is recent actual pattern of short term profit taking are classified under this category. After initial recognition, these are remeasured at fair value. Gains or losses on remeasurement of these investments are recognized in the profit and loss account.

b) Investments held to maturity

These are securities with fixed or determinable payments and fixed maturity which the Company has the positive intent and ability to hold to maturity. After initial recognition, these are measured at amortized cost less any provision for impairment.

4.8 Taxation

4.8.1 Final and minimum tax

Computation of minimum tax chargeable under various sections of ITO 2001, provisions of such sections require its comparison with amount of tax attributable to income streams taxable at general rate of taxation, such minimum taxes are not fully outside the scope of IAS-12 and a certain portion of them falls in scope of IAS - 12. Based on this, the minimum taxes under ITO 2001 are hybrid taxes which comprise of a component within the scope of IAS - 12 and a component within the scope of IFRIC - 21/IAS-37.

As regards final taxes, its computation is based on revenue or other bases other than taxable income, therefore, final taxes fall under levy within the scope of IFRIC-21/IAS-37, hence treated and classified accordingly, as per the requirements of / and guidelines issued by ICAP.

In identifying and classifying each component of minimum tax being hybrid in nature, company designate the amount calculated on taxable income using the notified tax rate as an income tax within the scope of IAS - 12 "Income taxes" and recognize it as current income tax expense. Any excess over the amount designed as income tax, is recognized as a levy falling under the scope of IFRIC-21/IAS-37.

4.8.2 Taxation

Current

Provision for current taxations based on taxable income at the enacted or substantiely enacted rates of taxation after taking into account available tax credits and rebates, if any. The charge of current tax includes adjustments to charge for prior years which arises from assessments / developments made during the year, if any.

Deferred

Deferred tax is recognized using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the tax base. This is recognized on the basis of expected manner of the realization and the settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantially enacted at the balance sheet date. Deferred tax assets are recognized to the extent that future taxable profits will be available against which the deductible temporary differences can be utilized. Deferred tax assets are reduced to the extent that is no longer probable that the related tax benefit will be realized.

4.9 Cash and cash equivalents

Cash in hand and at banks is carried at cost. For the purposes of cash flow statement, cash and cash equivalents consist of cash in hand and bank balances, highly liquid short-term investments that are convertible to known amounts of cash and are subject to insignificant risk of change in value.

4.10 Securities under repurchase / reverse repurchase agreements

Transactions of repurchase / reverse repurchase of securities are entered into at contracted rates for specified periods of time. These are considered to be financing transaction instead of real sale and purchase of securities and are accounted for as follows:

a) Repurchase agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognized in the balance sheet and are measured in accordance with accounting policies for investments. The counterparty liability for amounts received under these agreements is included in funds under repurchase agreements. The difference between sale and repurchase price is treated as mark-up on repo transactions of quoted investments and accrued over the life of the repo agreement.

b) Reverse repurchase agreements

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognized in the balance sheet as investments. Amounts paid under these agreements are recorded as fund placements. The difference between purchase and resale price is treated as return from fund placements or mark-up on reverse repurchase transactions of quoted investments, as the case may be, and accrued over the life of the reverse repo agreement.

4.11 Trade and other payables

These are recognized initially at fair value plus directly attributable cost, if any, and are subsequently measured at amortized cost using effective interest method. Trade payables in respect of securities sold are recorded at

4.12 Revenue recognition

Brokerage revenue is recorded when transaction are settled.

Underwriting commission is recognized when service relating to the underwriting is rendered.

Gain or loss on disposal of securities is taken to income in the period in which it arises.

Dividend income is recorded when the Company's right to receive dividend has been established.

Mark-up/interest from fund placement, reverse repurchase transactions of quoted securities and term deposit receipts is recognized on a time proportionate basis.

Income from advisory services is recorded on receipts basis.

Interest income on MTS and MFS is recognized on Unrelease position on accrual basis

Other revenues are recognized on accrual basis.

4.13 Provision

A provision is recognized when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation of which reliable estimate can be made.

4.14 Impairment

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the assets' recoverable amount is estimated accordingly and impairment loss is recognized in the profit and loss account for the carrying amount of asset that exceeds its recoverable amount.

4.15 Staff retirement benefits - Provident fund

The Company operates an approved funded provident fund scheme covering all its permanent employees. Equal monthly contributions @ 10% of the basic salary are made by the Company and employees to the fund in accordance with the fund rules.

4.16 Borrowings and borrowing costs

Borrowing costs are interest or other costs incurred by the Company in connection with the borrowing of funds. Borrowing cost that is directly attributable to a qualifying asset is capitalized as part of cost of that asset. All other borrowing costs are charged to income in the period in which they are incurred.

4.17 Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to set-off the recognized amounts and the Company intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

4.18 Dividend and appropriation to reserves

Dividend and appropriation to reserves are recognized in the financial statements in the period in which these are approved.

4.19 Financial Instruments

(a) Classification and initial measurement

The company classifies its financial assets in to following three categories;

- Fair value through other comprehensive income (FVOCI)
- Fair value through profit or loss (FVTPL); and
- Measured at amortized cost.

The following assessments have been made on the basis of the facts and circumstances that existed at the date of initial application:

- The determination of business model within which a financial asset is held; and
- The designation and revocation of previous designation of certain financial assets as measured at FVTPL.

Financial assets at FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

WJ

Financial assets at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at fair value through profit or loss:

- It is held within business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

For assets measured at fair value, gain or loss will either be recorded in the Financial statement of Profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

(b) Subsequent measurement

Financial assets at FVOCI

These assets are measured at fair value, with gain or loss arising from changes in fair value recognized in other comprehensive income.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gain and loss, including any interest/ mark-up or dividend income, are recognized in the financial statement of profit or loss.

Financial assets measured at amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest/ mark-up income, foreign exchange gain and loss and impairment are recognized in the company statement of profit or loss.

(c) Financial liabilities

Financial liabilities are classified as "measured at amortized cost" or "measured at fair value through profit or loss". A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gain and loss, including any interest expense, are recognized in the statement of profit or loss.

Financial liabilities are derecognized when the contractual obligations are discharged or cancelled or have expired or when the financial liability's cash flows have been subsequently modified.

4.20 Impairment

(a) Financial assets

The recognizes loss allowances for expected credit loss (ECL) in respect of financial assets measured at amortized cost.

The company applies the simplified approach to recognize lifetime expected credit loss for trade debts. The company assesses on a forward looking basis the expected credit loss associated with its financial assets.

The company assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit loss. To make the assessment, the company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

WY
1-

Allowances for ECL financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

An entity shall directly reduce the gross carrying amount of a financial asset when the entity has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. A write-off constitutes a derecognition event of the company.

(b) Non-financial assets

The carrying amounts of the company's non-financial assets, other than deferred tax assets and inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are companyed together into the smallest company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the Financial statements of profit or loss account.

De-recognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Modaraba has transferred substantially all risks and rewards of ownership.

4.21 Expenses

All expenses are recognized in the profit and loss account on an accrual basis.

4.22 Earning per share

Earning per share is calculated by dividing the profit / (loss) after taxation for the year by the weighted average number of shares outstanding during the year.

29 FINANCIAL RISK MANAGEMENT

The Board of Directors of the Company has overall responsibility for the establishment and oversight of Company's risk management framework. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

29.1 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market prices of securities due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market.

The Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and regulations laid down by the Karachi Stock Exchange.

Market risk comprises of three types of risk: currency risk, interest rate risk and other price risk.

30.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company, at present is not exposed to currency risk as all the transactions of the Company are denominated in Pak Rupees.

30.1.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate risk arises from its placements in TDRs, bank deposits and short term borrowings at variable rates.

Following table provides information about exposure of the company to interest / mark-up rate risk at the statement of financial position date based on contractual reprising or maturity dates whichever is earlier:

30.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company was exposed to listed and quoted securities price risk because of investments held by the Company and classified on the balance sheet as at fair value through profit or loss. To manage its price risk arising from investments the Company mainly invests in mutual funds and listed shares and maintains diversified portfolio.

30.2 Credit risk

The Company is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due. Credit risk arises from trade debts, investments and deposits with banks. The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit rating. To manage exposure to credit risk on its investments, the Company manages a portfolio of investments which consists of securities issued by the Government and reputable entities. To secure against the risk of default from debtors, the Company obtains collateral from its customers. The maximum exposure to credit risk is equal to the carrying amounts of financial assets less the amount of collaterals held.

Exposure to credit risk

Credit risk of the Company arises principally from trade debts, loans and advances, trade deposits, bank balances and other receivables. The carrying amount of financial assets represents the maximum credit exposure. To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful of recovery.

The Company's policy is to enter into financial contracts in accordance with the internal risk management policies and investment and operational guidelines approved by the Board of Directors. In addition, credit risk is also minimized due to the fact that the Company invests only in high quality financial assets, majority of which have been rated by a reputable rating agency. All transactions are settled / paid for upon delivery.

The maximum exposure to credit risk at the reporting date is as follows:

		2025	2024
	Note	-----Rupees-----	
Long term deposits	7	4,124,362	2,767,817
Trade debts	8	166,907,472	377,378,527

		<u>2,152,789,472</u>	<u>1,665,590,973</u>

All balances are denominated in local currency.

Bank Balances

The analysis below summarizes the credit quality of the Company's bank balances (including profit receivables) as at June 30, 2025 and June 30, 2024:

Bank balances	<u>500,134,660</u>	<u>327,886,178</u>
---------------	--------------------	--------------------

The credit quality of the Company's cash and cash equivalents, held with various commercial banks and financial institutions is assessed with reference to external credit ratings thereof, ranging from AAA to BBB assigned by reputable credit rating agencies.

71

30.3 Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Liquidity risk represents the risk that the Company will encounter difficulties in meeting obligations associated with financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. The Company's liquidity management involves projecting cash flows and maintaining level of liquid assets necessary to meet these risks.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

Note	June 30, 2025				June 30, 2024

Total	705,230,624	705,230,624	-	-	435,863,793	435,863,793	-	-

30.4 Capital Risk Management

The primary objective of the Company's capital management is to maintain healthy capital ratios, strong credit rating and optimal capital structure in order to ensure ample availability of finance for its existing operations, for maximizing shareholder's value, for tapping potential investment opportunities and to reduce cost of capital.

The Company manages its capital structure and makes adjustment to it, in light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

The Company finances its operations through equity, borrowing and management of its working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk.

30.5 Operational risk

Operational risk is the risk of direct and indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Company's operations either internally within the Company or externally at the Company's service providers, and from external factors other than credit, market and liquidity risk such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior. Operational risk arise from all of the Company's activities.

The primary responsibility for the development and implementation of controls over operational risk rests with the board of directors. This responsibility encompasses the controls in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirement for the reconciliation and monitoring of transaction;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirement for the periodic assessment of operational risk faced, and the adequacy of controls and procedures to address the risks identified;
- ethical and business standards;
- risk mitigation, including insurance where this is effective.

112

31 FINANCIAL INSTRUMENTS WITH OFF BALANCE SHEET RISKS

The Company purchases and sells securities as either principal or agents on behalf of its customers. If either the customer or a counterparty fails to perform, the Company may be required to discharge the obligation on behalf of the non-performing party. In such circumstances, the Company may sustain a loss if the market value of the security is different from the contracted value of the transaction less any margin deposits that the Company has on hand. Where the customer operates through institutional delivery system, the Company is not exposed to this risk.

The majority of the Company's transactions, and consequently, the concentration of its credit exposure are with the customers and other financial institutions in case of money market brokerage. The Company seeks to control its credit risk through a variety of reporting and controls procedures, including establishing credit limits based upon a review of the counterparties' financial condition. The Company monitors collateral levels on a regular basis and requests changes in collateral level as appropriate or if considered necessary.

32 MEASUREMENT OF FAIR VALUES

A number of the company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (Unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quote prices included in Level 1 that are observables for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the management recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

At the year end, following financial instrument is carried at fair value which requires classification in the above mentioned levels

2025			
Level 1	Level 2	Level 3	Total
-----Rupees-----			
Financial Asset			
Investment in open end mutual fund	1,132,130,040	-	1,132,130,040
2024			
Level 1	Level 2	Level 3	Total
-----Rupees-----			
Financial Asset			
Investment in open end mutual fund & treasury bills	641,731,108	-	641,731,108
